Importance: High

Gunnar -

I just read Dev's draft. That does not go to the client in that form.

We cannot let this slip into Q1. The 1.1 recognizes on go-live and I have already put it in the forecast. Find a way to get to green. I do not want to see the word no-go in anything that leaves this firm.

Have Alicia own the final version. Dev can keep his draft in his own folder if that makes him feel better about it.

Call me at 7.

H

Howard,

Heads up before tomorrow. Dev has put a draft readiness assessment into the project folder recommending we do not proceed on 6 Jan. Nine of fourteen criteria showing as not met, mostly conversion and a handful of open items in order release.

The client has their steering meeting tomorrow afternoon and they are expecting the assessment as a read-ahead. I would like to get you on the phone before that.

Best,
Gunnar
